

Area Comparables

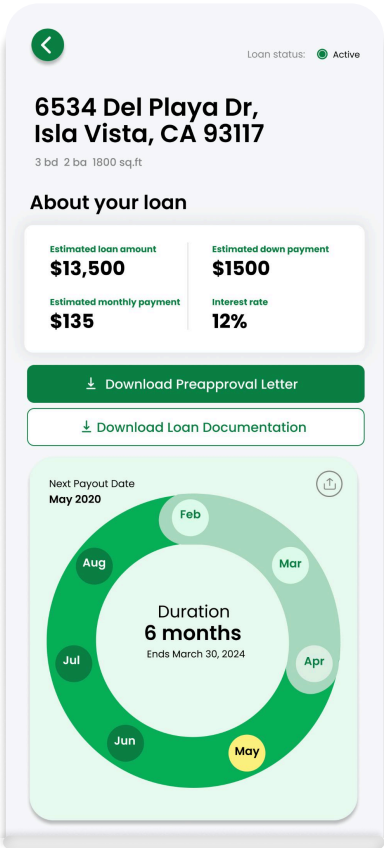

Breaking down the interface further, the next widget serves as an indicator for the user's upcoming payment date, displaying the amount due and providing space for users to choose their preferred payment method.

Draw Timeline

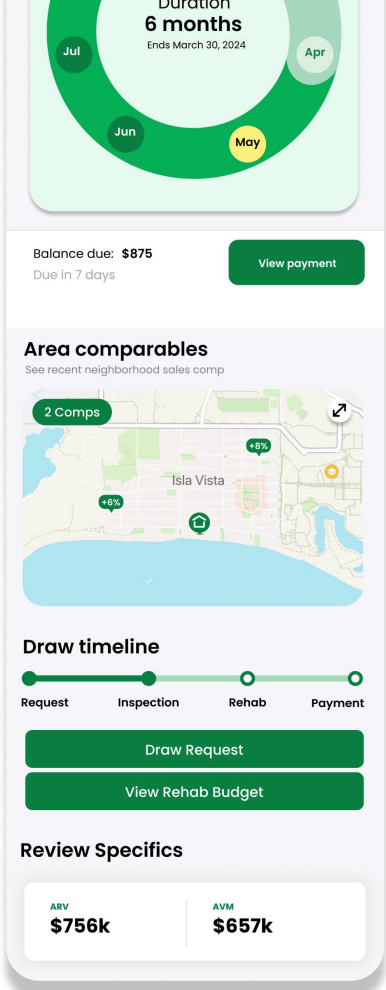

Following that is a draw timeline where users can track their progress and steps.

Review Specifics

Additionally, widgets for draw requests and viewing the rehabilitation budget screen are incorporated.

Pre-Approval Loan Application

Pre-Approval Denied

Pre - approval Success

For the pre-approval application, one thing we wanted to make sure of was that the user understands where their application stands and what they need to improve. To do this, we added color coded splash screens to elicit emotions of success of failure (green and red) There is also a screen that shows how the application can be improved
